

HOME HEALTH SERVICES

*F*or more than 60 years the name Visiting Nurse has stood for quality home health care in Georgia.

A Homecare Provider You Can Trust

As Georgia's largest nonprofit homecare provider, Visiting Nurse's philosophy is that home health care is founded in compassion; focused on patient independence; and provided with the highest level of technical expertise and competence. The care we provide to our patients has become more technically sophisticated, however, our approach to our patients remains the same; we are committed to providing personal, compassionate care of the highest quality. Most people would rather recuperate in the comfortable surroundings of their home, yet many need the skilled services of a hospital. Visiting Nurse allows patients to return home sooner and stay there as they receive the skilled care needed.

Quality Services In Your Home

Visiting Nurse is a JCAHO accredited, Medicare/Medicaid certified home care provider. As one of the most experienced home care providers in Georgia, we know what is required to deliver care effectively. It takes teamwork and commitment, and a partnership we establish with patients, families and members of the healthcare professional community.

Quality Services Provided

- Skilled nursing
- Rehabilitative services – Physical, Occupational and Speech
- Medical social services
- Home health aides
- Diabetes management
- Congestive heart failure management
- Telemonitoring services
- Wound care management
- Infusion therapy
- Pediatrics
- Alzheimer's care

Who Is Eligible?

Patients who:

- are under the care of a doctor of medicine, osteopathy or podiatry
- require skilled care from a nurse or therapist and have difficulty leaving their home due to illness or injury
- are being discharged from the hospital and meet the requirements for home care under Medicare, Medicaid, worker's compensation or private health insurance
- need education about a new or exacerbated condition such as diabetes, heart failure, pneumonia or COPD
- have new or infected wounds
- have significant medication changes or compliance challenges

How Do You Obtain Services?

Visiting Nurse has highly trained home health professionals in customer service and on site at many hospitals in and around Metro Atlanta. They are available to help you and answer your questions.

- Home care services are coordinated between Visiting Nurse and the patient's physician; we need a physician's orders before we can provide care.
- Patients can contact us directly, or ask their physician, hospital or social services agency to contact us.
